

HAMP® UPDATE

October 11, 2019

Important Information on the HAMP® Reporting Tool and SSL Certificates

Black Knight is making updates to its signature for all new GlobalSign intermediate SSL certificates.

What is the impact for users of the HAMP Reporting Tool?

To ensure continued access to Black Knight products without issue, Black Knight recommends that you download and install the certificate from the link provided below before **December 31, 2019**. The certificate should be installed for all workstations that access Black Knight browser-based applications, including the HAMP Reporting Tool.

The new certificate can be downloaded from the link below:
